Ensuring accessibility conditions that allow people with disabilities to receive educational services on an equal basis with others is ensured at the Stavropol State Agrarian University by the following approaches:

- annual training of various categories of employees (research and academic staff, administrative, managerial and educational support staff) under the programs "Organizational, legal and psychological-pedagogical foundations of higher inclusive education" "Development of a system of inclusive agricultural education for students with disabilities using e-learning , distance educational technologies" and "Training of regional experts for professional skills competitions "Abilimpix";
- annual implementation of activities within the framework of road maps developed by the university together with the RUMC (coordinator in the North Caucasus Federal University - North Caucasus Federal University) and the Ministry of Labor and Social Protection of the Population of the Stavropol Territory to accompany people with disabilities in the process of studying at the university, in finding work and counseling during their working life;
- integrating into the system of volunteer practices of the Federal State Budgetary Educational Institution of Higher Education Stavropol State Agrarian University the best experience of the volunteer movement "Abilimpix" for the maximum inclusion of people with disabilities and people with limited health capabilities in the active social and cultural life of university students. The volunteer team "Volunteer" conducts events for persons with disabilities.

Federal State Budgetary Educational Institution of Higher Education Stavropol State Agrarian University" ensures the participation of at least 1 student with disabilities

POLICY FOR THE IMPLEMENTATION OF EDUCATIONAL ACTIVITIES FOR STUDENTS WITH DISABILITIES

in the All-Russian network competition of student projects "Professional Tomorrow". Provides information support for the implementation of inclusive education at the university in the media and social networks.

The equipment of the territory adjacent to the buildings of the Federal State Budgetary Educational Institution of Higher Education Stavropol State Agrarian University and the premises of the university, taking into account accessibility for the people with disabilities to the maximum extent, is ensured by the following approaches:

- campus location of academic buildings, dormitories, catering facilities, scientific libraries, sports grounds, recreation areas, ensuring walking distance of objects from each other;

- parking spaces for disabled people are located in the courtyard of each university campus;

- all campus facilities of the Federal State Budgetary Educational Institution of Higher Education Stavropol State Agrarian University are equipped in such a way as to minimize physical, environmental, information restrictions for people with limited mobility and persons with disabilities (call buttons are installed at all entrances to the buildings; ramps; sanitary rooms are equipped in accordance with current norms and regulations ; specialized stands for navigation through educational buildings for persons with disabilities; a specialized caterpillar lift SHERPA No. 902 was purchased for moving wheelchair users along flights of stairs; the university's scientific library is equipped with a portable information induction system for the hearing impaired "Istok" A2, specialized software Jaws for Windows 15.0 Pro for people with disabilities, which allows you to voice textbooks, teaching aids and teaching materials included in the electronic library system of the Federal State Budgetary Educational Institution of Higher Education Stavropol State Agrarian University);
